

tmssoftware.com

Productivity software building blocks for

VCL

FireMonkey

IntraWeb

Developer tools

.NET

Thank you for choosing tmssoftware.com!

Your order for a tmssoftware.com product is being processed and a registration key will be sent shortly by email.

All tmssoftware.com products are delivered in electronic form by download from our website. Your order was now successfully processed by the payment processing company ShareIt. The next step is that an account on our website will be created by tmssoftware.com. The registration information for this account will be sent by email coming from info@tmssoftware.com

For orders paid by credit card, this should be delivered by email within 24 hours. For orders paid by international bank wire transfers, please take in account such payment can take 2 to 3 business days due to bank-to-bank transfer delays. If the registration information is not received within 24 hours, please check first if the email was not incorrectly flagged as junk-email and that the email address info@tmssoftware.com is not blacklisted at your company. If a problem remains, please contact us by email: info@tmssoftware.com. If an email delivery problem is suspected, we'd advise to send us an email address from an email account different from the email address used to place the order.

After receipt of the registration information email, you can use this to login on our website via the left sidebar of our [homepage](#) :

LOGIN

Customer login to access products, support information & special benefits.

Your registration e-mail address:

Your registration code:

[Forgot code?](#)

Or you can use this direct link: <http://www.tmssoftware.com/site/login.asp>

After login, go to the 'My products' page from where you can obtain:

- Future free updates
- Additional help
- Samples
- Discount offers for other software

- TMS Component pack (26/01/2015)
